DETAILED ACTION

1. Claims 1-15, 23-36 and 38 have been canceled. Claims 39-56 have been added. Claims 16-22, 37 and 39-56 are pending.

Election/Restriction

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 16-22, and 39-56, drawn to a method of inhibiting tumor growth in a mammal comprising administering a compound which inhibits the enzymatic activity of HAAH, classified in, for example, class 514, subclass 12.
 - II. Claim 37, drawn to a method of determining whether a candidate compound inhibits HAAH enzymatic activity, classified in class 435, subclass 183.

3. The inventions are distinct, each from the other because of the following reasons:

The methods of Groups I and II differ in the method objectives, method steps and parameters and in the reagents used.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and recognized divergent subject matter and because the searches required for the groups are not co-extensive, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently

Art Unit: 1642

named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
